AYES: Messrs. Wilson, Gecker, Litton and Bass.
ABSENT Mr. Gulley.

06SN0166:* In Matoaca Magisterial District, **ROBERT SOWERS** requested rezoning and amendment of zoning district map from Agricultural (A) to Residential (R-12) with Conditional Use Planned Development to permit exceptions to Ordinance requirements. Residential use of up to 3.63 units per acre is permitted in a Residential (R-12) District. The Comprehensive Plan suggests the property is appropriate for single family residential use of 2.0 units per acre or less. This request lies on 51.8 acres fronting approximately 1,050 feet on the south line of DuVal Road approximately 2,870 feet west of Otterdale Road. Tax ID 703-675-1477 (Sheet 14).

Ms. Peterson presented an overview of the request and staff's recommendation.

Mr. Jim Theobald, the applicant's representative, accepted staff's recommendation, noting the proposed zoning and land use conformed to the Upper Swift Creek Plan, limited density and the proffered conditions addressed the development's impact on capital facilities. He further noted there had been several community meetings and he was not aware of opposition to the request.

Mr. Wilson opened the discussion for public comment.

Dr. Tom Pakurar, a County resident, expressed concerns relative to the environmental impact of the proposed development on the Upper Swift Creek Reservoir and stated he felt, given the most recent rejection of the County's Regional Best Management Plan by the Environmental Protection Agency, Proffered Condition 3 should be modified to delete any reference to the Regional BMP Plan and the County would best be served by requiring the developer to construct his own BMP.

Ms. Marlene Durfee, Executive Director of the Responsible Growth Alliance of Chesterfield, expressed concerns relative to sprawl, lack of infrastructure and orderly development and the development's impact on capital facilities in the Upper Swift Creek area.

Ms. Andrea Epps, a County resident, referenced Dr. Pakurar's comments and expressed concern regarding overdevelopment of the area.

There being no one else to speak, Mr. Wilson closed the public comment.

In rebuttal, Mr. Theobald noted the language of Proffered Condition 3 was provided by Environmental Engineering in response to the Department of Environmental Quality and Army Corps of Engineers issues, noting the issues had been realized and strategies formed to deal with them.

Mr. Bass stated he understood the applicant would be required to provide a permanent BMP; noted the proffered conditions addressed area transportation improvements; and indicated the School Board was responsible for, and needed to address, the acquisition of sites for schools in the area.

In response to questions from Mr. Bass, Ms. Richardson indicated there were currently no other school sites planned in the area other than those outlined in the Capital Improvement Program.

In response to questions from the Commission, Mr. McElfish addressed issues relative to drainage, erosion and temporary sediment basins versus BMP facilities.

Ms. Rogers explained the difference between the intent of the language of Proffered Condition 3 in the "Request Analysis" and the concerns expressed not being addressed by the proffer. She suggested amended language for Proffered Condition 3, which she read.

In response to questions from the Commission, staff addressed concerns relative to the designs of temporary sediment basins versus permanent BMPs; maintenance of the .22 standard on-site; performance tests; protection of the standards; the applicant being required to construct a permanent BMP as well as being required to contribute to the Regional BMP Fund; deferral of the request to address the

issues raised; public utilities; the impact of the proposed development on capital facilities; and other concerns.

In response to a question from Mr. Wilson, Mr. Theobald stated he felt the original language was sufficient and he did not wish to defer the request.

After a brief discussion, Mr. Theobald stated his client was agreeable to the amended language of Proffered Condition 3, as provided by staff.

On motion of Mr. Bass, seconded by Mr. Litton, the Commission resolved to recommend approval of Case 06SN0166 and acceptance of the following proffered conditions:

If these amounts are paid after June 30, 2006, the amount paid shall be adjusted upward by any Board of Supervisors' approved increase in the Marshall and Swift Building Cost Index between July

All costs associated with the acquisition of the right-of-way shall be borne by the developer. In the event the County chooses not to assist the developer in acquisition of the "off-site" right-of-way, the developer shall be relieved of the obligation to acquire the "off-site" right-of-way and shall provide the

Residential use of up to 8.0 units per acre is permitted in a Residential Townhouse (R-TH) District. The Comprehensive Plan suggests the property is appropriate for single family residential use of 2.0 units per acre or less. This request lies on 5.5 acres fronting approximately 300 feet on the north line of Genito Road, also fronting approximately 600 feet on the east line of North Woolridge Road and located in the northeast quadrant of the intersection of these roads. Tax IDs 719-685-2188 and 3788; 719-686-1637, 2337, 2706, 3038, 3423 and 4238; 719-687-Part of 2245; and 720-686-Part of 3234 (Sheet 9).

Mr. Clay presented an overview of the request and staff's recommendation for approval subject to the applicant addressing concerns relative to the provision of an adequate size area for a focal point and the location of sidewalks. He also noted on March 15 and 21, 2006, in response to concerns expressed at the February 21st Planning Commission meeting, the applicant submitted additional proffered conditions relative to minimum house size and architectural treatment.

Ms. Barbara Jacocks, the applicant's representative, accepted staff's recommendation, noting concerns relative to minimum house size and architectural treatment had been addressed.

Mr. Wilson opened the discussion for public comment.

Mr. Shawn Clouse, representing Edgewater, Sections 1 and 2, expressed concerns relative to overdevelopment of the property, traffic hazards, design plan standards and BMP requirements and referenced a petition containing twenty-seven (27) signatures opposing the request. Mr. Francis Snell, Dr. Tom Pakurar, Ms. Kathy Rivera and Mr. Don Hughes, area residents; and Ms. Marlene Durfee, Executive Director of the Responsible Growth Alliance of Chesterfield, expressed concerns relative to overdevelopment of the property, density, existing sediment basin problems, water quality and the cumulative impact of the development on the community.

There being no one else to speak, Mr. Wilson closed the public comment.

In rebuttal, Mr. Mickey Blalock, representing the applicant, addressed issues of reduced density, open space and BMPs, citing benefits of the development to the County and noting the applicants had attempted to comply with all requests made of them.

Mr. Bass stated he felt the proposed layout was much improved from the original version; however, he still had concerns regarding no BMP certifications in five (5) years.

Mr. Blalock explained the current status of the existing sediment basins and plans to service them.

In response to a question from Mr. Wilson, Mr. Blalock stated he was willing to proffer that no building permits would be issued until the three (3) BMPs were certified.

In response to questions from Mr. Bass, Mr. Blalock stated he did not wish to defer the request and would prefer to proceed with the inclusion of the additional proffered condition to which he agreed.

Mr. Litton expressed concerns regarding the unmaintained existing BMPs and the attempt to add more to the site. He stated he felt the existing water quality concerns needed to be addressed before the case was moved forward.

Messrs. Gecker and Wilson stated they were uncomfortable with the request, as postured, and felt a deferral would be appropriate until such time as measures were in place and functioning to the satisfaction of staff.

Mr. Blalock requested a deferral to the April 18, 2006, Planning Commission public hearing, noting he would take the necessary steps to address the Commission's concerns.

The following motion was made at the applicant's request.

On motion of Mr. Bass, seconded by Mr. Gecker, the Commission resolved to defer Case 05SN0328 to the April 18, 2006, Planning Commission public hearing.

AYES: Messrs. Wilson, Gecker, Litton and Bass.

06SN0119:* (Amended) In Bermuda Magisterial District, **DSRA, LLC** requested rezoning and amendment of zoning district map from Agricultural (A) and General Business (C-5) to Community Business (C-3). The density of such amendment will be controlled by zoning conditions or Ordinance standards. The Comprehensive Plan suggests the property is appropriate for commercial use. This request lies on 4.1 acres fronting approximately 390 feet on the south line of West Hundred Road, also fronting approximately 900 feet on the west line of Interstate 95 ramp and located in the southwest quadrant of the intersection of these roads. Ms. Peterson presented an overview of the request and staff's recommendation for denial, noting that the application failed to restrict any additional vehicular movements from the site to West Hundred Road, thereby creating health, safety and welfare concerns related to transportation impacts; Proffered Condition 5 contained enforcement interpretation and legal issues; indicated that on March 21, 2006, in response to

concerns expressed by the Bermuda District Commissioner, Proffered Condition 4 was amended to restrict uses to two (2) restaurants, not to include carry out or fast food; and Proffered Condition 5, which attempted to condition the accessibility of the adjacent property to the south and contained enforcement interpretation and legal issues, was withdrawn.

Mr. Dean Hawkins, the applicant's representative, did not accept staff's recommendation.

Mr. Wilson opened the discussion for public comment.

Messrs. Michael Sweeny and Mukesh Trivedi, area property/business owners, voiced opposition to the request, citing concerns relative to access, additional traffic congestion, existing crossover problems and the health, safety and welfare concerns related to transportation impacts that would be generated by the development.

There being no one else to speak, Mr. Wilson closed the public comment.

In response to questions from the Commission, Mr. McCracken addressed transportation issues.

Mr. Wilson stated he had attended several community meetings regarding the request and was sensitive to the transportation challenges on Route 10, particularly in this area; however, he recognized the rights of property owners to develop their property and did not feel the request should be denied.

Mr. Wilson made a motion to recommend approval of Case 06SN0119 and acceptance of the following proffered conditions, including amended Proffered Condition 4.

PROFFERED CONDITIONS

1. Except for timbering approved by the Virginia Division of Forestry for the purpose of removing dead or diseased trees, there shall be no timbering on the Property until a Land Disturbance Permit has been obtained from the Department of Environmental Engineering and the approved devices have been installed. (EE)
2. No direct vehicular access shall be permitted to the property from West Hundred Road (State Route 10). (T)
3. The public water and wastewater systems shall be used. (U)
4. Uses shall be limited to two (2) restaurants. (P)

Mr. Litton seconded the motion for purposes of discussion.

Mr. Gecker stated he felt area businesses would be potentially negatively impacted by the development and he could not support approval.

The vote on Mr. Wilson's motion was as follows:

AYES: Messrs. Wilson and Litton.

NAYS: Messrs. Gecker and Bass.
ABSENT: Mr. Gulley.

The motion failed; therefore, the case was carried forward to the April 18, 2006, Planning Commission public hearing.

The Commission recessed at approximately 10:19 p. m.

The Commission reconvened at approximately 10:30 p. m.

06SN0178:* In Matoaca Magisterial District, **THE REED'S LANDING CORP.** requested rezoning and amendment of zoning district map from Agricultural (A) to Residential (R-15). Residential use of up to 2.90 units per acre is permitted in a Residential (R-15) District. The Comprehensive Plan suggests the property is appropriate for residential use of 1.01 - 2.5 units per acre. This request lies on 205.1 acres fronting approximately 2,870 feet on the north line of Hickory Road at its intersection with Halloway Avenue. Tax IDs 781-618-6468; 782-619-6148; 784-619-4378; and 784-620-1961 (Sheets 41 and 45).

Ms. Orr presented an overview of the request and staff's recommendation for denial, noting the proposal failed to comply with the Southern and Western Area Plan and to provide for adequate transportation improvements, as recommended by the Thoroughfare Plan. She stated, on March 20, 2006, the applicant submitted additional proffered conditions relative to density, permitted uses, community identification signage, and fencing within open space along Hickory Road.

Mr. Oliver D. "Skitch" Rudy, the applicant's representative, did not accept staff's recommendation, noting concerns relative to density, permitted uses, community identification signage, fencing within open space along Hickory Road, transportation improvements, public utilities, etc., had been addressed. He stated the development would be constructed by quality developers, would be an asset to the County and warranted approval.

Mr. Wilson opened the discussion for public comment.

Mr. Jerry Journigan; Ms. Linda Kidd; Mr. Samuel Smith; Mr. Roland Britton; Ms. Brenda Stewart; Dr. Samuel Busch; Mr. Edgar Wallen; and Ms. Faith Hess, area residents and/or property owners, voiced opposition to the request, citing concerns relative to inappropriate zoning, density, overdevelopment of the property, increased traffic volumes, road improvements, lack of infrastructure to accommodate the development, overcrowding of schools, insufficient buffers and open space, drainage, protection for an area cemetery, design of the development, and other concerns.

Dr. Tom Pakurar, a Clover Hill resident, voiced concerns relative to the lack of proffered conditions to address water quality, drainage and the environmental impact of the project in the area and stated he did not feel the proposal was in the appropriate posture to proceed.

Ms. Marlene Durfee, Executive Director of the Responsible Growth Alliance for Chesterfield, addressed issues related to smart growth, open space, buffers, designs of the project, density, etc., and stated she did not feel the proposal was in the appropriate posture to proceed.

Mr. Jim Hayes, one of the principles of The Reed's Landing Corp., stated he felt the development would be comparable to Stoney Glen South and a tremendous asset to area land values.

There being no one else to speak, Mr. Wilson closed the public comment.

Mr. Bass stated he concurred with the concerns expressed relative to area roads; noted that the proffered conditions had been submitted in a piecemeal fashion; stated that, although he appreciated the additional information submitted today, he did not see any substantive changes to the configuration of the development; that he was disappointed the developer had not agreed to construct the entire North/South Arterial Road across the property; and did not feel a recommendation for approval was warranted.

Mr. Gecker stated he was disappointed no proffered conditions had been submitted to address sidewalks, water quality and road improvements other than the part of the road which the applicant agreed to construct.

Mr. Litton concurred with Mr. Gecker and expressed concern there were no conditions addressing house sizes, architecture, etc.

Mr. Wilson stated, in addition to the same concerns as Messrs. Gecker and Litton, he was concerned about the layout of the development.

On motion of Mr. Bass, seconded by Mr. Gecker, the Commission resolved to recommend denial of Case 06SN0178.

AYES: Messrs. Wilson, Gecker, Litton and Bass.

ABSENT: Mr. Gulley.
